spill the brain's beans...

Dermatoglyphics Multiple Intelligence Analysis

Every child is a GENIUS waiting to be discovered.

Every child cannot become a Doctor, Engineer, Chartered Accountant or a Lawyer but every child can surely become "**SOMETHING**" (Inborn Talent) as per his/her "**GENIUS**".

What is that "**GENIUS**" (**Inborn Talent**) in your child?

Everyone is a genius. But if you judge a fish on its ability to climb a tree, it will live its whole life believing that it is stupid.

- A. Einstein

What is DMIA (Dermatoglyphics Multiple Intelligence Analysis)?

- Dermatoglyphics refers to the scientific study of fingerprints.
- This science in coordination to the Multiple Intelligence Theory of Dr. Howard Gardner has developed an accurate mean to reveal our
 - Innate potential, intelligence and talents
 - Inborn strengths and weaknesses

If identified early, one has the opportunity to develop the strengths while improving the weaknesses, so that the left and right brain may grow in a more balanced and integrated fashion.

Why DMIA?

DMIA solves the puzzle of “**what's the best for me**” as it reveals “**How am I smart**” rather than “**How smart I am**”.

Based on scientific study of fingerprints and neuron presence/distribution in brain, DMIA reveals:

- Strengths and Weaknesses
- Like and Dislikes
- Basic personality
- Inborn talent and potential
- Learning sensitivity
- Brain dominance
- Multiple intelligence
- Preferred communication style
- Acquiring methods
- SWOT Analysis
- Career guide based on multiple intelligence
- Preferred learning style and Learning capacity
- Intelligence Quotient / Emotional Quotient / Adversity Quotient / Creativity Quotient

What does DMIA reveal ?

Personality

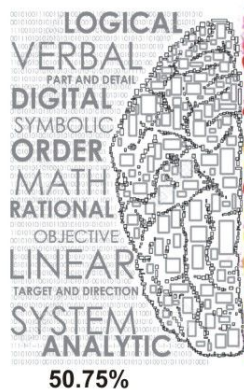

Multiple Intelligence

Learning Style

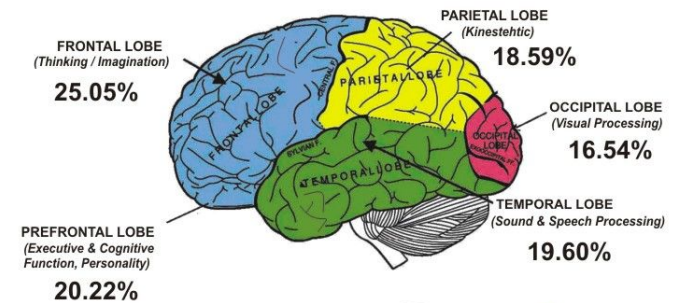

Left Brain

Right Brain

Brain Structure

Communication Style

Cognitive Learner = 60%
Affective Learner = 20%
Critical Learner = 00%
Reflective Learner = 00%
Integrated Learner = 20%

Multiple Quotients

Intelligence Quotient = 22.80%
Emotional Quotient = 24.92%
Adversity Quotient = 27.75%
Creativity Quotient = 24.53%
